

Thanks for helping to save our  
Earth by swapping costumes on  
**National Costume Swap Day**

Here are more ways you can make a difference for people & the planet this Halloween:

- Carry a reusable bag
- Give out alternatives to conventional candy
- If offering conventional candy, hand out less--one or two instead of a handful
- Compost pumpkins and leftover candy
- Craft items from candy wrappers instead of tossing them
- Walk, instead of drive from house-to-house
